Sierra Systems
an NTT DATA Company

Transform your Organization with Oracle Cloud SaaS Applications

Are you ready to take advantage of the cloud?

Oracle offers the most complete, innovative, and proven cloud suite of SaaS applications that enable customers to transform their business with the latest intelligent technologies such as AI and machine learning.

Oracle's Software-as-a-Service (SaaS) applications are built on a single data model that connects end-to-end business processes and helps customers transform their business with intelligence.

Our Solution

Sierra Systems, an NTT DATA Company, has a long and successful history of delivering Oracle solutions for over 25 years. We also provide the full range of Oracle Cloud Human Resources, Enterprise Resource Planning and Planning and Budgeting Cloud Service application implementation and Platform-as-a-Service integration consulting services.

We apply industry best practices expertise to best understand project requirements aligned to your business strategy and technology roadmap.

By defining a scope and schedule using an adopt and adapt approach, and deliver solutions based on Sierra Systems' wealth of best practices, methodologies, and reusable intellectual property.

Our Services

Cloud Assessment

- *Are you looking to understand what the Cloud means to your organization?*

- *What are your available options and how do you take the next step?*

We can help you navigate the different paths that will ultimately lead you to your destination.

Our **Oracle Cloud Assessment program** is built on three distinct activities that can be engaged individually or as a series, matching your organization's place in its Cloud journey.

- First, we bring clarity on what "the Cloud" means to you and what options are available in the market.

- Second, we gain an understanding of your current application landscape, business priorities, and business capabilities to define a recommended roadmap to move to the Cloud.

- Third, we work with you on a deeper dive into Oracle Cloud solutions to define scope, project staffing, and budget requirements to help you take the first step

Oracle Cloud Integration Technologies

Sierra Systems Oracle Cloud technology team also provides Oracle Platform-as-a-Service (PaaS) consulting. PaaS provides low-cost, rapid integration across Oracle, third-party SaaS, and on-premises applications with the most complete set of PaaS solutions for connecting, extending, securing, and mobilizing applications.

ORACLE® Platinum Partner
